50 YEARS OLD — NILES, CALIFORNIA FRIDAY, JULY 22, 1938 — NO. 29

AROUND *the* TOWNSHIP

The electors of Irvington School District will have a golden opportunity on August 13 to obtain a modern and complete educational plant that will be worth just under $90,000. They have it within their power to buy this amount of schooling facilities at a direct cost to the district of $52,000 payable over a period of the next 16 years. Of course, some of the federal money that makes up the difference came out of the pockets of residents of the district. Now, they have the chance to get it back—with interest.

As a matter of business, such a bargain would not be turned down. More especially so when it is an article that can be used and is really needed.

It will be bargain day in Irvington School District three weeks from tomorrow.

A police district to maintain police sounds like the logical solution to a troublesome problem.

If such a move is legal, it appears that Centerville, through its Lions Club, will pioneer the way, thus swapping the haphazard for the systematic and sure method of financing the peace officers.

We hope it works.

* * * *

How we have progressed!

In the horse and buggy days and even up to not so long ago, it was not uncommon for a petty thief to be arrested for stealing articles of value that might easily be disposed of for ready money. That was to buy something to eat.

Now, in two cases in justice court within the week, the apprehended culprits—three of them—stated they stole or attempted to steal automobile parts and canned preserves for money to buy wine.

Ah, me. (As Andy would sigh.)

* * * *

Although they kept it dark, they really were on the job. And, inasmuch as the end far out justifies the means, we would not be one to withhold merited praise.

Instead of a partially constructed building with the financing defrayed by proceeds from the $100,000 bond issue voted in 1937, with perhaps years of waiting before additions could be made, Niles now will have a complete grammar school plant that is calculated to meet the educational needs for many years to come, thanks to the PWA grant of $78,355 approved in Washington, D. C. Wednesday.

Such sums of money do not drop from the skies. Some one put in a good many hard licks to convince the federal agency that a dire need exists. Therefore, we toss our bouquets to the Niles school board.

Those on the committee are Joe Adams, chairman; Manuel Lewis, Frank Madruga, Erle Hygelund and Judge Allen G. Norris.

Postal Receipts For Year Increase At Niles Postoffice

NILES—An increase of $1,319.33 in total postal receipts for the fiscal year ending June 30, 1938 over last year, was disclosed this week in reports compiled by Postmaster Edward E. Enos.

The total business at the local postoffice for the year just ended was $12,650.26 as compared with $11,330.93 for the previous fiscal period.

"The substantial increase was due not only to the general growth in population, but to the fact that business concerns realized the possibilities offered by advertising through the mails," Postmaster Enos said.

"Also, by making known the fact that we are in a position to render just as effective service as some of the larger postoffices, much of the business rightfully belonging to Niles has been induced to remain here. Our patrons are entitled to the credit for the showing of this office and we hope they will continue to avail themselves of the facilities offered."

NILES—Judge J. A. Silva found Alphonso Guiterrez not guilty on a charge of drunken driving, but guilty on two other counts of reckless driving and driving without an operator's license when he appeared in the Justice Court last Friday afternoon.

Gallo Martinez, 52, who admitted he broke the windshield and windows in a car belonging to Joseph Prieto of Alvarado because he was "so mad" when neighbors told him Prieto's truck almost ran down his children, was let off with a 30 day suspended sentence when he pleaded guilty to tampering with an automobile.

Federal Grant Assures Early Construction of Complete New Niles Grammer School

Irvington School District Will Vote On Bonds Aug. 13

IRVINGTON — August 13 has been set as the date for the election calling for the sale of $52,000 in bonds to augment a WPA grant of $34,364 for the new grammar school in Irvington, according to J. R. Silveria, clerk of the board.

Popular opinion is that the bond election will carry due to the fact that the present school plant has been condemned because of earthquake hazard and damage by termites. The new structure is being planned along modern lines with unit construction so that additional rooms may be added as enrollment increases.

Advocates of the new school building are urging all progressive residents of the community to boost the bond election in order that it may carry with a big margin.

The bonds will be of $1,000 denomination, bearing interest not to exceed four percent and will mature, three in each year from 1939 to 1955, except that in 1955 four bonds will mature.

Polls will be opened in the Irvington School on August 13 from 1 to 6 p. m. Mrs. Lucille Day has been named inspector and Mrs. Elsie M. Soito and Mrs. Ilene Monese, judges. The school district will constitute the election precinct.

Interment was in Holy Ghost cemetery with the Chapel of the Palms in charge of arrangements.

NILES—Construction of a new Niles grammar school building to cost $178,355 will begin as soon as technicalities can be complied with and bids advertised for, following receipt of word of approval at Washington, D. C. of a PWA grant of $78,355 which will be used to supplement the bond issue of $100,000 voted by the district in May 1937.

Congressman Albert E. Carter, who is at home during the summer recess, telephoned the board of trustees of the school on Wednesday that the federal money had been granted.

A telegram from Carter also was received by W. B. Kirk, president of the Niles Chamber of Commerce, stating the grant had been approved.

The school board was preparing to let a contract for construction of the main building and one wing of the new structure and plans already have been approved, using the proceeds from the bond issue for financing it.

With the PWA grant available, plans for the second wing are being submitted for approval and the entire structure will be erected at once.

Plans call for an auditorium, including stage, dressing rooms and property room. It will connect by arcades with the two wings. In the right wing will be the principal's office, nurses' quarters and teachers room, in addition to classrooms. In the left wing will be library, store rooms and classrooms.

The small buildings which were moved to the rear of the lot several months ago and which formerly were used as classrooms, will be available for cafeteria, sewing room, manual training quarters, or for whatever need arises.

HELD TO SUPERIOR COURT FOR SENTENCE FOR AUTO THEFT

CENTERVILLE—Henry Barela, who was arrested and brought into the Justice Court on a charge of auto theft, apparently was operating on a wholesale basis in the stolen car racket.

When he entered a plea of guilty before Judge Allen G. Norris last Friday afternoon and was held for sentence by the superior court in Oakland, it was learned that a similar charge had been made against Barela in Judge Bruner's court in San Leandro for the theft of an automobile he had driven from there to Alvarado on the same day that he took the car belonging to John Logan of Alvarado, which caused his arrest.

SUMMER OF '38!

Summertime is traditional slumptime as far as business is concerned. In comes July and pop! go the busines indexes, the stock markets, the employment curves as they settle down for a comfortable summer siesta till the brisk trade winds of Autumn whip them into motion again.

But this summer, of all summers, has been different. The stock market has forgotten to doze and instead has seized a new and lustier lease on life. There is visible evidence of rapidly accumulating confidence throughout the country. A country-wide movement, initiated by business groups, is proceeding to wage a "spirited war against all remnants of recession," in which California, by the end of the month will be actively engaged, too.

From Washington, assistant secretary of commerce Patterson has issued a telling re-affirmation of faith in the structure and vitality of our economic system, with the declaration: "The mainspring of the American method is the free, competitive, private market." It is the function of government, he declared, to see that business can operate in such a market. It is not its function, he made clear, "To fix prices or supersede the judgments of our competitive, private markets."

Added to the growing attack on the evils of price-fixing, these declarations point the way to recovery through more democratic means than the freezing of prices which needlessly punish the consumer for the benefit of the large manufacturer.

And democratic methods alone spell the kind of successful recovery America wants. The evidence indicates that is the kind of recovery we shall soon have if this summer's good news makes the fall editions!

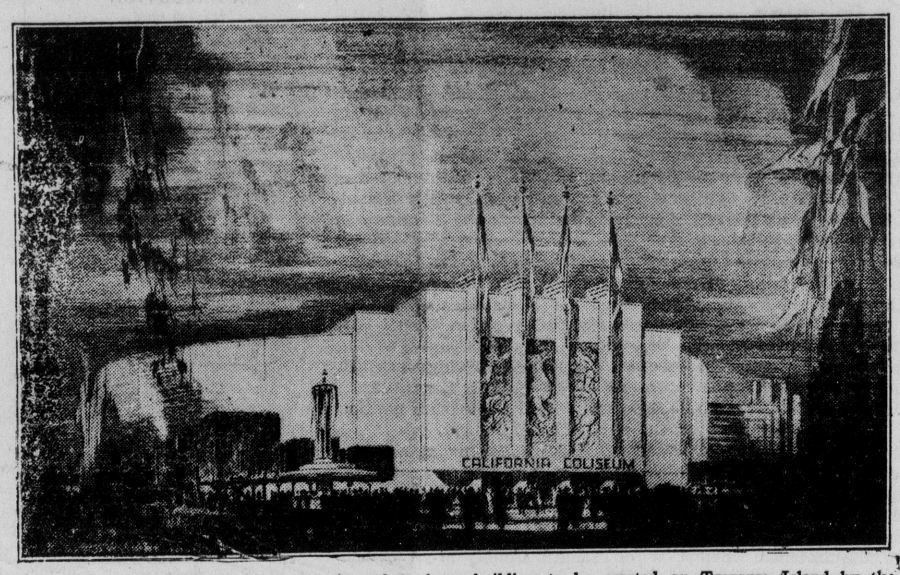
EXPOSITION LIVESTOCK COLISEUM



The above represents the first detailed view of the huge building to be erected on Treasure Island by the California State Commission, for the purpose of housing and displaying livestock shows and athletic and sporting events. Covering an average city block in area, the Coliseum will comfortably seat 8500 spectators. To the left, nearby, will be built one of the largest barns in the world, with facilities for 600 box stalls. These buildings will be the home of some of the fair's outstanding attractions.

Additional facts of interest in connection with the mammoth coliseum and livestock pavilion to be erected on Treasure Island by the California State Commission are today disclosed through a report from Commission headquarters.

As the accompanying picture—the first one available showing in detail the construction of the entire structure—discloses, the building is not only huge in proportions but also attractive and decorative.

Confronted with the problem of providing housing accommodations for thousands of blooded horses, cattle, sheep and swine, as well as dog, cat and poultry shows, the Commission and Exposition authorities have approved the design submitted above, plans for which were prepared by Sam Heiman, architect of San Francisco.

In addition to adequate facilities for the exhibition of livestock, it was essential that quarters be provided for important athletic and sporting events.

E. J. Fjeldsted, Chief of the Livestock Show for the Golden Gate International Exposition today announces that the dimensions of the display ring of the Coliseum—100 feet by 226 feet—will be greater than those of the famous Madison Square Garden arena in New York City.

Mr. Fjeldsted also states that to date 13 international livestock shows have been definitely contracted for the Exposition, with exhibits assured from every state in the Union, Canada, and all foreign wool producing countries. Negotiations now under way indicate that within two weeks two of the most important of America's dairy shows will be definitely signed up also.

Leading breeders of California, throughout the Eleven Western States and nation-wide express decided gratification that the State of California and the Golden Gate International Exposition are providing so thoroughly for the best interests of this most important industry.

Liberty WAS NEVER EXTINGUISHED Over Night

FREE GOVERNMENT gives way to dictatorship by gradual stages. In every country where dictators now oppress a regimented people, the death of freedom was preceded by two significant steps. First, newspapers were throttled, terrorized, and censored into subservience. Second, the voice of the people became mute, and instead there is heard the voice of interested government propaganda. Free expression of public opinion became illegal and autocracy now tells the people what to think. Opposition has become hopeless because it has become inarticulate. America is still the land of individual liberty . . . but Americans cannot remain a free people unless freedom of the press continues. Regardless of what your own political convictions may be, you and your newspapers are partners in safeguarding the American democratic ideal. Support your newspaper—protect its independence and vitality—for its welfare is your welfare—its freedom is your freedom.
